

product

A silky, ultra-hydrating botanical lactic acid serum infused with organic Japanese green tea, polyphenols and a copper-complex peptide. Continuously balances your skin from within and lastingly restores its ideal moisture level, leaving your skin intensely hydrated with a healthy glow. Paraben free.

skin type

All skin types.

benefits

Rebalances all skin types. Restores hydration and provides nourishment to environmentally damaged skin.

directions

Apply liberally morning and evening to cleansed skin for daily restoration and balance.

pro tip

Excellent to use post wax or post laser treatment.

key ingredients

Aloe barbadensis leaf extract (organic)	Soothing, healing, anti-inflammatory
Olea europaea oil (organic)	Botanical carrier - moisturizing, softening. Stimulates, heals, tones and firms the skin.
Sodium hyaluronate	Hydrator - binds 1000x its weight in water, a naturally occurring component of skin. Naturally derived from vegetable source - sugar beets and soy.
Camellia sinensis (EGCg) - Japanese green tea (organic)	Super antioxidant – prevents DNA damage to the skin High levels of polyphenols – abundant in epigallocatechin gallate (EGCg), 20 times more powerful than Vitamin E
Copper complex	An organically bound copper, similar to copper peptide. Chlorophyll from nettles delivers copper to the skin, accelerates wound healing, cell regeneration and stimulates elastin and collagen synthesis, has anti-inflammatory properties.
Beta vulgaris (beet) root and Haberlea rhodopensis (yeast) extract	Plant-derived anti-itching, soothes irritated skin Yeast extract minimizes dry, sunburned and wind chapped skin. Includes enzymes, vitamins, sugars, and mineral substances.
Crithmum maritimum extract (coastal marine fennel)	Antioxidant; free radical scavenger Increases the production of ceramides. Barrier function and restoration, promotes cell respiration.
Algae extract and artemisia vulgaris extract (mugwort)	Algae water-binding properties, potent moisturizer. Contains vital trace elements, such as Iron, Zinc, Magnesium, Copper and Silicon that are decisive for the metabolic processes of the skin.
Althaea officinalis (marshmallow root extract)	Plant extract from althaea root, a natural hydroglycolic plant based emollient, thickener, anti-inflammatory. Soothing, proven to treat sunburns and dry skin
